*A planet is an astronomical body orbiting a star or stellar remnant that is massive enough to be rounded by its own gravity, is not massive enough to cause thermonuclear fusion, and has cleared its neighbouring region of planetesimals.. The term planet is ancient, with ties to history, astrology, science, mythology, and religion. Several planets in the Solar System can be seen with the naked eye.*

*From that point forward I never read the Book of Revelation as a book primarily of symbols. Yes, the symbols were still there, but they were secondary. The primary face value meaning was never again to be tossed aside for any arbitrarily assigned meaning based only on the symbolism. So, for example, the Star Wormwood would come and trouble Earth, and the name was chosen because it made the ...*
