Reality is all of physical existence, as opposed to that which is merely imaginary. It is the name for all of physical existence, but the word is also used in a declension to speak of parts of reality that include the cognitive idea of an individual "reality" (i.e. psychology), to a "situational reality," or a "fictional reality.". The term is also used to refer to the ontological status of ...

Many of you have probably heard of the 'alkaline diet'. There are a few different versions of the acid-alkaline theory circulating the internet, but the basic claim is that the foods we eat leave behind an 'ash' after they are metabolized, and this ash can be acid or alkaline (alkaline meaning more basic on the pH scale). According to the theory, it is in our best interest to make sure ...
